Season 1934-5

IN offering our Trade List for the coming season, we beg to state our stocks are all in splendid saleable condition. In addition to those enumerated, we have many other lines, but not sufficient to quote in quantity. We shall be very pleased to answer any inquiries.

We take this opportunity of thanking our customers for the liberal patronage bestowed on us during the past seasons, and trust to merit the same during the coming.

R. CHEESEMAN & SONS.

Unknown correspondents are respectfully requested to forward CASH with their orders, or refer to a Melbourne firm.

TERMS OF CREDIT.—All accounts are due within one month from date of invoice, a discount of $2\frac{1}{2}$ per cent. (6d. in the £) being allowed. No discount allowed off overdue accounts.

All goods are delivered free at the wharfs, railway stations, or carrier's office. A receipt is taken "in good order and condition," after which our responsibility ceases, and the goods travel at the risk and expense of the purchaser.

Cases, etc., used for packing, are charged for at cost of materials only, and are allowed half for if returned to North Brighton station sound and prepaid. Returned empties must be advised.

Orders will be executed strictly in rotation. Lines can only be supplied as long as our stocks specially set apart for the purpose of this list are available.

SPECIAL LINES

Sterculia hybrida

This is a cross between *acerifolia* and *diversifolia*. This *Sterculia* is a fast grower, and does well in the Mallee and hot districts, and is highly recommended. Red and pink flowers. Plants in 3½-in. pots. 1/- each ; 10/- dozen.

Bougainvillea, Mrs. Butt

We have flowered this new variety, and can confidently recommend it as being one of the most beautiful varieties in existence. The plant is of free climbing habit, and produces in the greatest profusion its beautiful crimson flowers without any magenta shade whatever, making it quite distinct from any other variety. A sterling novelty. 2/- each.

Duranta plumieri, Golden Variegated

A golden-margined form of the well-known *Duranta plumieri*. Makes a splendid pot plant as well as a striking plant in the garden. 1/4 each.

Special Lines—continued

**Duranta plumieri,
Silver Variegated**

Similar to the golden variety, but with pretty silver variegated leaves. 1/4 each.

Cytisus purpureus

A very desirable garden plant, with purple flowers, blooming in spring ; dwarf and hardy. 1/4 each.

Cytisus filipes

A very fine variety with long pendulous creamy-white flowers in spring. This is far more showy than *Genista monosperma pendula*. It is also a very attractive plant when not in bloom. Plants, 3½-in. pots. 1/4 each.

Nierembergia azurea

A slender, graceful free-flowering plant entirely covered with pale-blue flowers ; a great acquisition. 1/4 each.

Berberis Taylorii

This variety originated in Tasmania, and in autumn is covered in long sprays of crimson berries. It is one of the most striking *Berberis* we have seen. 1/8 each.
